Executive Performance & KPI Summary

Maincrafts Business Analytics — Task 2 Final Deliverable

Power BI & Excel Analytics

1. CORE PERFORMANCE OVERVIEW

This document presents the management analysis of multi-regional sales, profitability margins, and line-item dynamics. The data structure and interactive visual measures were modeled in Power BI using custom DAX formulations.

TOTAL SALES	TOTAL PROFIT	PROFIT MARGIN	TOP REGION
$6.18M	$1.61M	26.05%	Florida

2. KEY SUB-CATEGORY & PRODUCT ECONOMICS

Sub-Category	Total Sales ($)	Total Profit ($)	Profit Margin (%)	Performance Tier
Markers	$627,875	$174,749	27.83%	High Volume & Margin Leader
Electronic Games	$565,092	$148,454	26.27%	Core Revenue Driver
Chairs	$431,964	$122,892	28.45%	High Profitability Margin
Bookcases	$413,165	$118,000	28.56%	High Margin Segment
Laptops	$419,950	$110,260	26.26%	Consistent Consumer Demand

3. IMPLEMENTED DAX MEASURES

DAX Formula Definitions (Power BI Model)

- **Total Sales** = `SUM(SalesData[Sales])`
- **Total Profit** = `SUM(SalesData[Profit])`
- **Profit Margin** = `DIVIDE([Total Profit], [Total Sales], 0)`
- **Monthly Sales** = `CALCULATE([Total Sales], VALUES(SalesData[Order Date]))`

4. MANAGEMENT INSIGHTS & DIAGNOSTICS

Core Business Findings

1. Revenue Concentration: Office Supplies and Electronics account for over 60% of total revenue. Electronics provides high dollar volume, while Office Supplies maintains strong operational margins.
2. Regional Leaders: Florida, New York, and California generate over 38% of total net profits. Florida leads in overall net margins.
3. Payment Preferences: Card payments (Debit & Credit) represent the highest cumulative value, followed by UPI and Cash on Delivery (COD).

5. STRATEGIC RECOMMENDATIONS

Optimize Regional Supply Chains

Allocate prioritized stock for high-margin categories (Chairs, Bookcases, Markers) into Florida and New York fulfillment centers to minimize regional stockouts.

Targeted Channel Incentives

Incentivize digital pre-payment (Credit Card / UPI) over Cash-on-Delivery (COD) to accelerate working capital turnover and reduce return logistics fees.

Margin Preservation Strategy

Bundle lower-margin tech items (e.g., standard accessories) with high-margin sub-categories (Markers, Chairs) to stabilize average basket profitability.

Seasonal Trend Planning

Utilize the monthly trend line graph to align promotional campaigns 30 days ahead of historical quarterly peaks identified across 2021–2025.

6. DASHBOARD VERIFICATION & SUBMISSION SIGN-OFF

The dynamic Power BI report (`.pbix`) has been validated against all criteria: dynamic KPI metrics, interactive multi-slicer filtering (State, Category, Order Date), continuous time-series visual representation, sub-category matrix breakdowns, and executive narrative insights.

Submission Package Verification:
✔ Cleaned Master Dataset & Pivot Calculations (`.xlsx`)
✔ Interactive Management Sales Performance Dashboard (`.pbix`)
✔ 2-Page Executive Summary & Key Insights PDF (`.pdf`)
